

# PRAY FOR OUR NATION

## 12. HEALTH, WELFARE, EDUCATION

Pray for our welfare and health services.

Here are some thoughts to help us focus our prayers.

- For support and safety of staff in welfare and health services as they seek to help people in crisis.
- For good quality of care for those most in need in our communities.
- Wisdom for those in leadership on a national and local level that impact the services available.
- Finances for essential services, where funding is limited and being cut across the country.

Pray for education – schools, colleges and universities...

- What educational needs do you have in our local community?
- Pray for the staff, pupils & support staff.
- Pray particularly for new starters beginning in September.
- Pray for young people leaving school or college and going on to University or looking for employment.
