January 2010 Newsletter

Hello , Happy New Year! May the new year bring you more blessings than you can currently imagine. May you be guided by God's Spirit in everything you do because "... when we try to live our lives in our own strength, we ultimately fail... (1) we will always lack the power of the Spirit, and we'll suffer from fatigue; (2) we will always lack the vision of the Spirit, so we'll suffer from frustration; and (3) we will always lack the sustaining ministry of the Spirit so we'll suffer from failure." (David Jeremiah)
God bless, **Susanne Irving**

Spiritual food for thought

"God doesn't do anything or allow anything to be done to us that we would not choose for ourselves, if we could only see things from His perspective. If we could see every event exactly as God does, we would do things the very same way. He sees the end from the beginning, how everything fits together, and how necessary some of our hurts and disappointments are." (David Jeremiah)
